AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

On July 13, 2016 the Certified PREA Audit conducted a Pre Audit discussion with the agency PREA Coordinator. The PREA Coordinator elected to do use the Online Audit System (OAS) to conduct the audit. The timeline and functions were established with the Residential Reentry Center in Baltimore.

A notification of the audit was posted at the facility letting the residents know that a PREA Audit was scheduled for August 15 & 16, 2016. The notification had the auditor's name and a PO Box number for the residents to contact the auditor if they wanted to make a confidential report. The Pre Audit Questionnaire was uploaded with documented policy attached. A review of policy was completed and audit notes were placed in the audit report. The facility was contacted and informed that another Certified PREA Auditor (Carolyn Atkins) would be at the facility on Tuesday August 16, 2016 to assist with conducting audit interviews.

On August 15-16, 2016, an audit was conducted at the Residential Reentry Center in Baltimore to determine compliance with the Prison Rape Elimination Act standards.

A complete tour of the facility was conducted on August 15, 2016. The following areas and operations were visited and observed: all resident living areas (included male and female housing), education areas, food service, facility operations, maintenance area, administrative area, resident laundry area, recreation, and common areas (day rooms). Carolyn Atkins completed a tour of the facility on August 16, 2016 looking at the same areas.

Formal interviews were scheduled through random selection of staff and residents from schedules and rosters provided by the staff prior to the audit. Interviews were conducted with the following: Agency Head (Vice President), PREA compliance manager, Facility Director, Random Staff and Residents. There were no transgender or intersex residents and no residents who had reported an incident of sexual abuse or harassment. There were no limited English resident and no cognitively impaired resident.

The auditors were allowed free access to all areas of the facility, had access to interview residents selected randomly and to see documentation requested. Posters were visible throughout the facility announcing the audit as well as how to contact the hotline. Staff made notification to the population when they were making rounds in their living areas. Cameras were in place throughout the facility. The facility staffing plan was adequate for a community corrections center. There were no letters received from the resident population.

Documents reviewed for this audit included policy, institutional supplements, staff training records, Memorandums of Understanding, records, personnel information, housing unit logs, volunteer and contractual employee records, and training curriculum's.

Facility Characteristics:

The auditor's description of the audited facility should include details about the type of the facility, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation.

115.211	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The agency is a Community Corrections Facility. It houses BOP residents. When reviewed the policy was written well and provided clear direction for staff to follow. The policy was developed by the PREA Coordinator. When interviewed the PREA Coordinator was clear and explained all of the policy and procedures that were put in place. She is in the hierarchy of the agency being the assistant to the vice president. It is clear that she has adequate time and attention to develop and implement PREA. Her staff indicate that she is responsible for providing leadership and oversight to them.</p>

Staff interviews revealed that staff would follow the policy 7-E. Please note that there were only 10 staff on duty on day shift. Training of staff on a smaller level was evident.

Staff knew that they would report immediately to the facility director knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation.

Unless otherwise precluded by Federal, State, or local law, medical and mental health practitioners shall be required to report sexual abuse pursuant to paragraph (a) of this section and to inform residents of the practitioner's duty to report, and the limitations of confidentiality, at the initiation of services.

If the alleged victim is considered a vulnerable adult under a State or local vulnerable persons statute, the agency shall report the allegation to the Indiana Adult Protective Agency under applicable mandatory reporting laws.

The facility director shall report all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to the PREA Coordinator(s).

Upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report shall be required to:

	Auditor Discussion
	I interviewed the Director and Random staff. The intake screening employee indicated that he would immediately notify upper management if a vulnerable or predatory resident was received into the facility. Staff working in the housing units indicate that they would hold the resident in a classroom in close proximity to their working area until they could get him/her to the proper housing. The Director indicates that they would house in the resident in the most secure housing near the officer station if they deemed the resident to be at risk. In an extreme case they would put the resident on an ankle bracelet and allow an appropriate family member to take the resident home with them until adequate accommodations could be made.

The Director indicates if an incident does occur it will be forwarded to the BOP.</p>

115.277	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The Director indicates that he did not have any incidents. He was asked what would or what could he do. He indicates that he could bar the contractor or volunteer from coming into the facility. He would monitor the visits of the alleged victim. He would notify the contractors or volunteers agency and the violation. He would take the identification from them. He would have staff speak with the resident letting him or her know that the employee is responsible to make the right decision and encourage the resident to report any contact with the volunteer in question. The facility has not had a reported incident but clearly understands that steps that they must take to ensure compliance with the PREA standards.</p>

115.278	Disciplinary sanctions for residents
